I would use the Young Conference room – I am confident we will get many confirmations (already 3 – with Ecopneus), the EPA delegation is not small, and several Embassy staff would be interested...

That is a hard call. The RSO room is really dark and definitely not ideal. It looks like we are inviting 20 companies, of which we already have two confirmations (Whirlpool and Dow). At the table there will need to be the Charge, Administrator and Ex. 6 - Personal Privacy (and possible Administrator's chief of staff – I leave this for ESTH to determine). I suppose the Saturn Room is possible if we only have 10-11 additional companies participate. So I would keep the Saturn Room reservation just in case.

I would still probably do the Young Conference room over the RSO room – they will put the tables together in a big square in the middle of the room, I've seen it done. I'm open to other suggestions, as none of these are as ideal as the Young East conference room which would have been perfect. Do you know what else is being held there that day and if it is possible for that to be moved?

Best,  
Dawn

All,

Saturn room will not be a good fit for this roundtable. It will seat probably 14-15 comfortably. As mentioned before, I reserved the YCC and I can put in a request for tables, but the room would be large and look empty. Another thought is the RSO conference room that has a U-shape table, but nothing to impress the eyes to look upon. Please let me know your thoughts and I will then move forward.

Correct, the Red room is booked all week as well as YCR east. I have reserved the Saturn room already. I am also looking into YCR center, but they will have to get back to me.

Thanks Dawn and [Redacted],

Looks good!

Lee, please find a room. Thanks for the Red Room idea, Dawn, but when I tried to book for the Country Team, I believe the Red Room was reserved all week by mil (or possibly management) colleagues. Hence, CT will be in Amb. Office.

[Ex. 6 - Personal Privacy]

Great suggestions. Let's add them to our invitation list. Do you happen to have names and/or email addresses for these companies? If so please send to me and I will compile into the master list.

Thanks for confirming the date and time. I assume we are planning on using the Red Room? Is it ok if we invite the EU representative from Dow even though you are doing something locally with Dow as well?

Thanks,  
Dawn

Dear Dawn

I would like to share my thoughts with you...

What about inviting also:

P&G  
Tesla  
US Green Building Council;  
First Solar

Could we include a few Italian companies involved in sustainability?

Italian company Aquafil (recycling nylon)  
ECOPNEUS an Italian company which recycles end-of-life tires into surfaces for sports as well as "silent asphalts", urban furniture, acoustic insulation, energy

Thanks

Hi [Ex. 6 - Personal Privacy]

Just to give you a sense of what we are thinking, below is the list of companies we are planning to invite to the EPA roundtable. We tapped colleagues in our EU office who had a few suggestions, and they are reaching out to AmCham EU to potentially identify others. We welcome any additional companies you know of as well. Then as soon as the date and time is locked in we can send the save the dates.

Italy

**MWH Global**

**Whirlpool** -- Gaetano Casalaina [Ex. 6 - Personal Privacy]

**GE** -- Sandro De Poli [Ex. 6 - Personal Privacy]

**3M** -- Paolo Cirmi -- [Ex. 6 - Personal Privacy]

Cisco - Agostino Santoni [Ex. 6 - Personal Privacy] and [Ex. 6 - Personal Privacy] Francesco Benvenuto,  
Director Public Policy/Institutional Relations [Ex. 6 - Personal Privacy]

UT/Carrier

Dupont

Johnson Controls – Marzio Raveggi [Ex. 6 - Personal Privacy]

UL – Marcello Manca – [Ex. 6 - Personal Privacy]

Boeing – Antonio De Palmas – [Ex. 6 - Personal Privacy]

Google – Fabio Vaccarone [Ex. 6 - Personal Privacy] (his assistant); Giorgia Abeltino, Director Public Policy  
Italy [Ex. 6 - Personal Privacy]

## EU

Dow – Company has a large footprint in Italy. Some of their products facilitate the waste  
recovery/recycling process. Dennis Kredler [Ex. 6 - Personal Privacy]

Coca Cola – Large water user. Heavily involved in waste/recycling issues. Sophia Chrysopoulou  
[Ex. 6 - Personal Privacy]

Chemours – DuPont spin off that developed 1234yf, an air conditioning refrigerant that helps implement  
COP21. (Atlanta-based Purafil supplied the air-filtration system for the Sistine Chapel.) – Jorge Dieguez

Subject: Updated Notional Itinerary for Visit of Administrator Pruitt

Hello Team Italy,

I had the opportunity to meet with Administrator Pruitt and his political team regarding his upcoming mission to Italy. I am attaching a draft itinerary which reflects the changes based on these meetings and some things we heard from you as well. I did pass on the Embassy request that Administrator Pruitt return to the U.S. from Bologna, but he has decided to return to the U.S. via Rome. I am still waiting for confirmation of his flights so that we can work transport back to Rome around that need. I am sure that there will be a lot of questions and I look forward to walking you through the schedule on our next conference call this coming Tuesday morning.

I hope that you all enjoyed your long holiday weekend in Italy.

Best regards, Mark
